

Accent University Sponsors 3M 'Scotchguard' PPF Training

On March 16-18, Accent sponsored the first of what will be regular 3M Paint Protection Film training classes at its training facility in Sarasota. This recent three-day training, instructed by Ryan Burroughs (Auto Paint Guard, Inc. - Tampa), was attended by four of our existing auto film dealers anxious to tap-in to the potent profit potential PPF provides (pardon the alliteration), as well as Accent's own Jorge Carralero.

Instructor Ryan Burroughs (2nd from left) demonstrates correct 3M PPF application technique to Felix Gomez and Jorge Carralero, under the watchful eye of Wendell Doman (3M).

Monitored by Wendell Doman (3M CCMC), successful completion of this training earned attendees certifications as Authorized 3M PPF Installers. Please watch for alerts from Accent as to when the next PPF training opportunity will be scheduled. Better yet, as these classes tend to fill-up as soon as they are announced, call Accent to pre-register yourself for the next training.
